

ESTIMATING TRANSPORT COST

The EcoCocon wall system is shipped to all of the EU countries, EEA member and cooperating countries, USA and Canada.

Shipping to continental Europe, mainland UK and Ireland is done via enclosed lorries. Other locations may require shipment in containers and are not covered by this guide.

If the delivery place, be it the construction site or another location, cannot be reached by a lorry from continental Europe, please contact your local partner for a transport price estimate.

A standard lorry can usually carry about 140 m² of EcoCocon panels or 130 m² when accompanied by fibre boards and clay plaster.

While we always strive to ensure the lowest transport prices, please keep in mind they are subject to fluctuation. The final transport quote can only be provided several weeks in advance. The enclosed price ranges are for information purposes only.

Country	Approx. price per lorry in € ex. VAT
Albania	3900 - 4100
Austria	2000 - 2900
